PROFESSIONAL SUMMARY

Information Technology student and graphic designer who designs accessible digital interfaces and builds responsive front-end web applications that align with real business needs. Brings a year of graphic design for an MPL Philippines esports team, freelance product design for a milk tea brand, and hands-on IT and network support experience, turning complex requirements into clear visual prototypes, polished layouts and clean, scalable front-end code.

EXPERIENCE

Graphic Designer — Aurora Gaming **Oct 2025 – Present (1 yr)**

- Design match-day graphics for MPL Philippines Season 18, including match results, pre-game announcements, defeat recaps and the season match schedule.
- Create Mobile Legends hero build and emblem guides featuring the team roster.
- Build reusable templates so posts can be published right after each match, with sponsor-ready layouts for Infinix.

Technical & Network Support Intern — PTSI Philippines **Jun 2026 – Oct 2026**

Productivity Technologies Services, Inc.

- Supported day-to-day IT operations, troubleshooting hardware, software and network issues.

Freelance Graphic Designer — Super Daddy Milk Tea Shop **Aug 2025 – Feb 2026 (6 mos)**

- Designed product posters for the shop's milk tea, cheesecake, coffee and frappe line, including Oreo, Red Velvet, Classic, Iced Latte, Matcha and Mango drinks.
- Created social media promotions with product photo retouching, price callouts and bilingual (English–Filipino) copy, giving each drink its own bold color theme.

PROJECTS

PTSI Corporate Website — Web Designer & Developer **2026**

- Designed and developed a responsive corporate website for an IT products and services company, covering About Us, Partners, Products, Services, News, Careers and Contact.

Live: ptsiwebsite.vercel.app

BSAid — FAR1 Visual Novel Website — Web Designer & Developer **2026**

- Designed and built the website for a visual novel that teaches Financial Accounting and Reporting 1, with a retro pixel-art look and a keyboard-navigable, in-browser game menu.

Live: bs-aid-website.vercel.app

Personal Portfolio Website — Designer & Developer **2026**

- Designed and coded an interactive, responsive portfolio in HTML, CSS and JavaScript, deployed on Vercel.
